As a User I want to be able to see what stuff others have so that I can borrow them.

As a User I want to be able to see what stuff I have so that I can lend them to others.

As a User I want to know who has my stuff and when they will return it so that I can protect my stuff.

As a first time user I want to be able to see understand how the app works easily so that I can decide if I want to sign up.

As an Admin I want to be able to monitor movie lending and punish those who are abusing the system so that movShare remains good.

As a user I would like to make money so that I have an incentive to share my stuff.

As a creator of movshare I would like the platform to make money and be popular so that I can die wealthy.

As a developer of movShare I want things to be easy and painless to maintain and expand.

As an admin I want to reward those good users so that they are encouraged to keep being good.

As a user I want to know if the person who wants to lend my movie is trustworthy.

As an admin I want the platform safe so that users will trust it.

As a user I want the platform to be safe so that I don't regret signing up.

As a user since I can share types of media other than movies I would like to be able to easily to tell the difference between types of media so I can easily keep things organized.

As a marketing professional I want to know what types of media are being shared and what specific things are the most popular so that I can sell ad space and information that will make my company money.

As a user I want to be able to quickly find what I am looking for. So that I don't waste time doing tedious things.

As a user I want movShare to be cool and popular so that I can invite my friends and have a fun time sharing lots of stuff on movShare.
